

Assignment - 1

Institute Name:	Silver Oak College of Computer Application	Programme Name:	Integrated Master Of Science Information Technology
Semester:	7	Academic Year:	2026-2027
Course Name:	Ethical and Legal Frameworks for Digital Systems	Course Code:	MDC5011C

Innovative Assignment :

Responsible Technology Innovation Project: Designing Ethical, Secure, and Inclusive Digital Solutions

(Cyber Threat Intelligence and Digital Ethics Portfolio: Analysis of I4C Cyber Digest Cases)

Students will identify a real-world challenge related to digital ethics, cyber laws, data privacy, artificial intelligence, intellectual property rights, or digital governance and design an innovative solution such as a website, mobile application prototype, awareness campaign, digital toolkit, policy framework, chatbot, infographic series, or educational video. The project should demonstrate ethical decision-making, legal compliance, responsible technology use, and practical recommendations.

Innovative Assignment Submission Guidelines :

Particular	Guidelines
Assignment Type	Innovative
Submission Mode	Soft Copy (PDF) through Google Classroom
Deliverables	Project Report (10–15 Pages), Prototype/Creative Output, and Presentation (10–12 Slides)
Suitable Titles	1. I4C Cyber Digest-Based Cybercrime Analysis and Digital Ethics Portfolio 2. Cyber Threat Investigation using I4C Cyber Digest 3. Real-World Cybercrime Analysis using I4C Cyber Digest Reports 4. Digital Ethics, Cyber Laws, and Cyber Threat Intelligence: An I4C Cyber Digest Portfolio 5. Cybercrime Case Analysis and Responsible Technology Solutions using I4C Cyber Digest 6. Cyber Threat Intelligence Report: Analysis of Recent Cyber Incidents from I4C Cyber Digest 7. Emerging Cyber Threats and Digital Governance: An I4C Cyber Digest Study 8. Cybersecurity Awareness and Legal Analysis through I4C Cyber Digest 9. Contemporary Cyber Threat Analysis using I4C Daily Cyber Digest 10. I4C Cyber Digest Innovation Portfolio: Cyber Ethics, Cyber Laws, and Responsible Digital Practices

Student Task	Students shall select 5–10 recent cyber incident reports from the I4C Cyber Digest and: ● Analyze the cyber attack or fraud. ● Identify the type of cybercrime. ● Examine the ethical issues involved. ● Map applicable cyber laws and legal provisions. ● Recommend cybersecurity best practices and preventive measures. ● Develop an awareness poster, infographic, short video, or digital handbook based on their findings. ● Present their work in a seminar and submit a portfolio report with references. The I4C publishes regular Cyber Digest reports that summarize recent cyber threats and incidents, making them a suitable source for this activity.
Suggested Solutions	● Website, Mobile App Prototype ● AI Chatbot, Awareness Campaign ● Infographics, Educational Video ● Digital Ethics Handbook, Privacy Policy ● Cyber Law Guide ● Digital Governance Framework
Report Format	A4 Size, Portrait, Times New Roman (12 pt), 1.5 Line Spacing
Report Structure	Problem Statement, Objectives, Proposed Solution, Methodology, Expected Outcomes, Ethical & Legal Considerations, Conclusion, References
References	IEEE/APA Citation Format
File Naming Convention	EnrollmentNo_StudentName_InnovativeAssignment.pdf
Evaluation	Innovation, Technical Quality, Ethical & Legal Understanding, Practical Implementation, Documentation, and Presentation

Evaluation Criteria	Description	Marks
Problem Identification & Case Selection	Selection of relevant cyber incidents from the I4C Cyber Digest, clarity of problem statement, and justification of the chosen topic.	10
Cyber Threat & Legal Analysis	Analysis of cybercrime, ethical issues, applicable cyber laws, privacy regulations, and legal provisions.	20
Innovation & Proposed Solution	Creativity, feasibility, originality, and effectiveness of the proposed solution (website, app, chatbot, awareness campaign, policy, toolkit, etc.).	20
Technical Quality & Implementation	Design, prototype quality, functionality (where applicable), technical accuracy, and practical implementation.	15
Report Documentation	Organization, methodology, content quality, formatting, diagrams, references, and overall presentation of the report.	10
Presentation & Communication Skills	Quality of seminar presentation, explanation of concepts, demonstration, confidence, and response to questions.	10
Ethical, Social & Governance Perspective	Understanding of digital ethics, responsible technology use, cybersecurity awareness, digital governance, and societal impact.	10
References & Originality	Appropriate citation (IEEE/APA), use of authentic sources (including I4C Cyber Digest), originality, and academic integrity.	5
Total		100

Assignment - 2

**SILVER OAK
UNIVERSITY**
EDUCATION TO INNOVATION

Institute Name:	Silver Oak College of Computer Application	Programme Name:	Integrated Master Of Science Information Technology
Semester:	7	Academic Year:	2026-2027
Course Name:	Ethical and Legal Frameworks for Digital Systems	Course Code:	MDC5011C

Handwritten Assignment Questions:

Q. No.	Question	Marks
Q1.	Explain the importance of Ethics and Digital Citizenship in today's digital society. Discuss digital footprint, online reputation, cyberbullying, responsible online behavior, and ethical decision-making with suitable real-life examples.	20
Q2.	Describe the role of Cyber Laws and Data Privacy in protecting digital users. Explain the Information Technology Act, 2000, common cybercrimes, digital signatures, personal data protection, and the rights and responsibilities of digital citizens.	20
Q3.	Discuss the significance of Intellectual Property Rights (IPR) in the digital era. Explain copyrights, patents, trademarks, trade secrets, software piracy, open-source licensing, and the ethical use of Artificial Intelligence with relevant examples.	20
Q4.	Explain the importance of Responsible Technology Use and Digital Governance. Discuss information security, cybersecurity awareness, organizational policies, digital inclusion, sustainability, and future trends in digital ethics and technology regulation.	20
Q5.	Select one recent cyber incident from the I4C Cyber Digest and analyze it by explaining: (a) the type of cybercrime, (b) ethical issues involved, (c) applicable cyber laws, (d) preventive measures, and (e) recommendations for responsible technology use and digital safety.	20

Handwritten Assignment Rubrics for evaluation:

**SILVER OAK
UNIVERSITY**
EDUCATION TO INNOVATION

Evaluation Criteria	Marks
Understanding of Concepts and Subject Knowledge	5
Critical Analysis and Logical Explanation	4
Relevance of Examples / Case Analysis	3
Organization, Presentation and Neatness	3
Originality, References and Conclusion	3
Grammar, Language and Overall Quality	2
Total	20
